

COFFEE EXPERTS

WELCOME TO THE FAMILY!

Office Refreshment Professionals | 936-648-1995

**WHO
WE
ARE**

We are a Family-owned coffee service that doesn't do contracts and we don't have monthly purchase minimums.

We have stellar references upon request and a 5-star Google rating. All of our coffee equipment is rent free combined with the best prices and services in the industry.

ECO GLOSSARY

Bagasse is made from sugarcane, and are strong, grease and cut resistant. Safe for microwave use and compostable.

PLA (polyactide) is made from corn. PLA products look and feel like plastic, but are 100% biodegradable and compostable.

PSM (plant starch) cutlery is made with 70% renewable materials that can be grown again and again, with a heat tolerance up to 200°.

Recycled paper items are made from post-consumer recycled materials that have been used, recycled and repurposed, meaning fewer virgin resources are required and less landfill waste is created.
